

Assessment Structure for TSLP

The current examination structure for the main cohort of TSLP is as follows:

Exam Diet	Paper Name	Hours & Minutes
Main Exam Diet S2 (April/May)		2:00

College of Science and Engineering policy on examination structure is that courses should be examined in the semester they are taught. In School of Informatics we are following this policy provided the staff member agrees to any changes to conform with the policy. In this case, the course is taught in Semester 1 and the course lecturer is in favour of examining in semester 1. So we propose the following change for the main cohort assessment to:

Exam Diet	Paper Name	Hours & Minutes
Main Exam Diet S1 (December)		2:00

This change will take effect from 2017/18 Academic year.
