School of Informatics,
Informatics Forum,
10 Crichton Street,
University of Edinburgh,
Edinburgh EH8 9AB, UK.

Edinburgh, 8th of November 2019

Dear Jane,

We hereby confirm that the Business School is willing to open the following courses

- Introduction to Risk Management in Banks (CMSE11167, 15 credits)
- Credit Risk Management (CMSE11122, 15 credits)
- Digital Business (BUST10144)

to informatics students for the upcoming academic year (2020/21). The projected intake from informatics is foreseen to be in the range of 15 to 20 students.

For the following academic years (2021/22 and beyond), the Business School is happy to consider an increased intake; however, this should be brought to our attention during our annual planning round which runs every year from November to March, so that additional resources can be put in place to accommodate growth. In the long run, this will also give us the opportunity to communicate to the School Informatics if any of the above courses is going to be put silent (e.g. sabbatical) or substantially modified.

Yours sincerely,

Prof. Roberto Rossi
Director of Postgraduate Studies

Prof. Wendy Loretto
Head of School
