Response to student feedback in 2018/19 course survey

I have taken note of the feedback from students in this course survey, and have the following comments in response.

- I am pleased that the students seemed to find the course valuable and interesting. It is difficult to find challenging case studies which can be completed in the 50 minutes of a classroom session, but I will think about this for the course in 2019/20. I would echo the anonymous student's recommendation that you must watch the videos before coming to class to derive any benefit from the classroom sessions.
