

# Advanced Vision - distance learning (AV-DL)

Response to student feedback in 2017/18 course survey

I/We have taken note of the feedback from students in this course survey, and have the following comments in response:

- I will review the pre-requisites emphasising the advantages of having some Matlab experience.
- I will help distance students find homework partners more easily.
- The coursework value has been increased to 30% to account for the workload.
- I will emphasise the value of the five (including one new) lab drill exercises, and of partnering.
- Students will now have an assessed preliminary self-review of the coursework.
