Response to student feedback in 2017/18 course survey

I have taken note of the feedback from students in this course survey, and have the following comments in response:

- I'm delighted the students enjoyed the course while at the same time feeling challenged. Next iterations of the course will keep these aspects intact.
- Some students noted that more practical examples would be helpful. Next year the course material will be redistributed, with more emphasis on practical examples early on.
- The lecture notes are being continually improved.
