

Neural Information Processing (NIP)

Response to student feedback in 2017/18 course survey

I/We have taken note of the feedback from students in this course survey, and have the following comments in response:

- This term the course will now be taught by one lecturer.
- I will provide a summary of the material, with references to relevant reading material. Most of the course content is well covered in: Theoretical Neuroscience by P Dayan and L F Abbott (MIT Press 2001)
- I have planned two have two sessions in a tutorial format, with pre-set exercises that treat relevant material in more depth.

Matthias Hennig, September 2018
