## Leverhulme Fellowships (Early Career)

- Applicants must have a track record of research, but should not have held an established academic appointment in the UK.
- The expectation is that Fellows should undertake a significant piece of publishable work during their tenure, and that the Fellowships should lead to a more permanent academic position.
- Only 50% funding so need to find an institution willing to top up the salary to 100% (the School of Informatics does not usually do this).
- Duration: three years
- Additional research costs up to £6000 per year can be claimed.

# Marie Curie European Fellowships

- Intended to encourage transnational, intersectoral and interdisciplinary **mobility**.
- Application is made jointly by fellow and potential host.
- Must include a Career Development Plan written in conjunction with the potential host.
- May include a secondment period in industry (3-6 months) to help ensure impact for the fellowship.
- Weighting: Excellence 50%; Impact 30%; Implementation 20%
- Separate applications/panels for Career restarts, Reintegration, Society and Enterprise, Standard European.
- Duration: 12-24 months

# Marie Curie Global Fellowships

- Global Fellowships are based on a secondment to a third country and a mandatory 12 month return period to a European host.
- Here "third country" means a country outside Europe, i.e. different to the current country and the country you will return to in Europe.
- Otherwise essentially the same as European Fellowships
- Duration: 24-36 months (12 months for the return phase in Europe)
