Advanced Computing Facility
Supercomputing/safe havens

Higgs Innovation Centre
Physics/engineering data

Genomics

Easter Bush Innovation Centre
Bio/genomics data

and commits the University to an extensive programme in translational research and education in data science.

How Informatics folk can engage with this now

- Use infrastructure investment as collateral for your research bids.
- Connect to City Deal team to develop your applied research.
- Develop new initiatives in education (residential/on-line)

With Bayes Institute as the conduit (and University nucleus)
supported by College of Science & Engineering
