

Foundations of Natural Language Processing - INFR09028

Response to student feedback in 2018/19 course survey

I/We have taken note of the feedback from students in this course survey, and have the following comments in response.

- We appreciate all the positive comments that students made about FNLP.
- We note the conflicting feedback on the extent to which students found the labs useful, and the suggestions for changes to their content and/or structure; we will take this into account as we consider possible changes for the labs next year.
- We note the request for tutorials. FNLP will be expanded into a 20 point course from the academic year 2020/21, and we plan to introduce tutorials then.

Alex Lascarides and Henry Thompson, 15th May 2019
