

Introduction to Modern Cryptography (IMC)

Response to student feedback in 2020/21 course survey

We have taken note of the feedback from students in this course survey, and have the following comments in response.

- Regarding the lack of tutorials: this year tutorials will be provided.
- Regarding the amount of coursework and their weight: The number of classwork has been reduced to one with a weight of 30% (and the weight of the final exam is 70%).
- Regarding the style of the lectures. We will try to provide more examples and extend the content of the slide with the support of the whiteboard for more convoluted topics.
