

# Consistent SCQF Level for Introduction to Vision and Robotics

Bob Fisher

April 28, 2017

Currently, there are two different SCQF Levels for the on campus (INFR09019 - level 9) and distance (INFR11126 - level 11) versions of Introduction to Vision and Robotics.

There is no academic difference between the two versions.

We propose to make both level 10 for consistency.
