

European Conference on Computer Vision 2020

In replanning, Aug 23-28. Was to be at Glasgow SEC.

We were expecting 5000 delegates. With the low attendance fee and no need for travel/hotel/food, we might get 10K delegates.

The current plan:

- Estimate c. 200 'orals' and 1200 'posters'
- All papers will have a video (10 min?) hosted for 1 year(?)
- 'Orals' will have live Q&A sessions, plus a persistent 'chat' thread
- 'Posters' will have a persistent 'chat' thread
- Workshops similar
- Tutorials will have pre-recorded content, longer Q&A sessions plus a persistent 'chat' thread
- Sponsors/exhibitors (50-100) will have 'spotlight' presentations as part of sessions
- Charging a publication fee for papers (250 GBP?) and attendance fee of 50 GBP. Budget reduced from 3m to 500K.
