

Informatics 1 - Functional Programming (INF1-FP)

Response to student feedback in 2017/18 course survey

I have taken note of the feedback from students in this course survey, and have the following comments in response:

- The new 20-point course Informatics 1 - Introduction to Computation (Inf1A) will include the content of this course and the content of Inf1-CL. Both Inf1-FP and Inf1-CL will cease to exist as independent courses.
- Each Inf1A student will attend two Inf1A tutorials. These will take place in large group lab sessions with multiple tutors and will last 1.5 hours each. We hope that this arrangement will solve some problems indicated in the critical comments.
- We will not use Atom in Inf1A.
