

Performance Modelling (PM)

Response to student feedback in 2017/18 course survey

I have taken note of the feedback from students in this course survey, and have the following comments in response:

- I am glad that the students enjoyed the course and particularly the flipped classroom mode of delivery last year. The flipped classrom mode will be used again this year. Following the suggestion of last year's student I will set up a Piazza group for coursework questions, and as last year there will be ad hoc tutorials to help with the coursework. Both PIPE and the PEPA tool were covered in hands-on flipped classroom sessions.
