

Pre-Registration of Course Choices for Continuing Students

In consultation with the Senior Personal Tutor, the Informatics Teaching Organisation (ITO) propose that we offer continuing Informatics students currently in years 2, 3 and 4 (of an MInf degree) the opportunity to pre-register their course choices in PATH from May – 31st July 2019.

This will enable ITO staff to download the submitted course choices and start registering students' course choices from 1st August, when EUCLID session roll-over has taken place.

We hope this will have a number of benefits:

1. Continuing students will start the session registered on their preferred courses.
2. Combined honours students will be registered in good time for outside courses with quotas.
3. Tutorial and Lab group allocation can take place in advance of the start of semester - and will appear on student timetables for the first time in session 2019/20.
4. ITO can help to lighten the PT load of course registration for continuing students in the honours years by registering courses in advance of the start of session.

Gillian Bell, ITO and Paul Jackson, Senior PT

Pre-Register your Course Choices

Continuing students can pre-register their course choices for the following session via PATH from May until the 31st of July.

The Informatics Teaching Organisation will register your pre-registered course choices on EUCLID from August 1st.

We hope that pre-registration will be helpful to speed up the process of course registration for continuing students, allowing tutorial and lab group allocation to take place in good time for the start of the new session.

Course Registration

Course registration in PATH will open from Monday 26th August 2019 and your Personal Tutor will register your course choices from this time.

The deadline for course registration is the end of week 2 of semester 1, Friday 27th September 2019. Semester 2 course choices can be changed up until week 2 of semester 2.

Email Message to continuing students in years 2, 3, 4 (of MInf)

SUBJECT: Know your course choices for next session? Pre-register now!

Dear Continuing Students,

Pre-registration of your course choices for session 2019-20 is now OPEN via PATH and will remain open until 31st July 2019.

We hope that opening PATH to you well in advance of next session will allow your preferred course choices to be registered on EUCLID during August by the Informatics Teaching Organisation (ITO), rather than waiting until the start of session. This means that your tutorial and lab groups can be allocated in advance resulting in a detailed timetable available for you at the start of session.

<https://path.is.ed.ac.uk/>

Course Registration via PATH will open on Monday 26th August for your Personal Tutor to register your course choices on EUCLID, the deadline to register is the end of week 2 in semester 1, Friday 27th September 2019. Semester 2 courses can be changed until the end of week 2 semester 2.

We hope this new pre-registration service is of benefit to you! Please let us know if you have any questions

ito@inf.ed.ac.uk

Best wishes,

Gillian Bell, on behalf of the ITO
