

# The Human Factor: Working with Users (THF)

Response to student feedback in 2017/18 course survey

I/We have taken note of the feedback from students in this course survey, and have the following comments in response:

- The student experience last year was affected by the staff industrial action in protest of pension cuts; we were also unable to source a venue that was large enough for all students. Hopefully, there will be no strike this year, and the course is now in a large enough space.
- This year only, the course will contain a strong visualisation component. Half the lectures will be about data visualisation, in preparation for a new, stand alone data visualisation course to be offered in 2019/2020.
